Sunday the 23rd
1898²

Darling. (Mrs Axel Prior)
I have just
returned from a birthday
visit at Holmens Kirkegaard.
The sun shone brightly
on your dear darling's
grave, and flowers were
strewn over his resting
place. You have been
in my thoughts all day
long, and I feel that

I must write to you,
and bring you a
loving thought from the
grave, where the weary
lie at rest.

Give my dear love to
your sweet girls, and
accept the same for
your own self from your
affectionate -

Ottie Jacobsen.
