My dear father.

All good wishes for the coming new year, hoping you will have an enjoyable ^{day} in spite of the loss - Many happy returns! I admit my correspondance is not very lively - but firstly I have nothing to tell and secondly my work takes quite a lot of time - besides my work consists mainly of writing - so of course I don't feel specially inclined for writing letters. - My studies takes quite a lot of time, we commence at 8 o'clock and is finished at 5 p.m. After supper we have, as a rule, at least 2-3 dictations to write, which takes 2 hours about - thus one is tired

It is very interesting work and I am awfully busy. The best gift, I can give you - I think - will be a well finished Examination and I will endeavour to do so!

We have had the advantage of Sir Henry Irving's visit here in town for a fortnight - He played "Louis XI" "The merchant of Venice" "Waterloo" and "The Bells" I saw him in every piece. He is certainly a great man.

When I attend theatres and see good noble acting, I am always thinking of you - Surely you must have been happy when you saw all the good artists, whom you have seen - and one thing more - you had a wife, who felt and understood the same as you and with whom you could enjoy pleasures of life! - Now the best opera company from N.Y. is coming it includes some or rather several of the best singers in the world now a days. Madames Calve, Leubrick

and many other great things - They
are going to give "Kautsky's" "Fogel"
"Tackvord" "Selvner" and several
"This with "Kronen" papers. - Tracy
"Carnegie" every by Calve and compare
"her with the "Book for our Capital -
"Enriched the "Garden of Angels" as
"State of the "Metric and as part!
There is truly a great change! - They
may be in the "York on our "Return
and we might not to fail to see
them! - "I have very - eyes extremely
glad - "You are extremely - "I do not
begin to feel some else or become
any less - so when you are here
we shall have a great time - "I
speak to Dr "Hansen to day about
a place for our "garden" but we
did not fix anything particular
"He thanks or rather "Hansen - it
will be his responsibility to
see "epitaphic part".

So we will have to cut it out
"Towns, which are most all, are:
"Michigan, Washington, St Louis,
"also important are Boston and Philadelphia.
"That means we have to make
"to get the highest "I know or about
"one week to read from (Chicago and
"New York included).
"I received a very kind letter from
"Walter Langford to day, in which he
"invites me to come after great "Boston
"home, and then stay with him -
"But thanks off!
"Do give my best regards to "Portland
"- it is a shame, we are so different
"in age, else we might be able to
"praise, he is a fine fellow!
"Thank "Pride for his letter, when
"I feel inclined to write.
"Compliments to all and to
"Special especially "our good nature
"and show in "Papa".
